ARD

Arnold Reception Desks, Inc.

- Arnold Reception Desks, Inc. is located in Irvington, NJ. It was founded in 1989 and specializes in the fabrication of reception desks, wood workstations, lobby desks, and modular courtroom furniture.
- Its products are sold through a network of authorized contract furniture dealers, and shipped throughout the US.
- Arnold Reception Desks, Inc. is one of four independent contract furniture manufacturers comprising the Arnold Companies.
- The Arnold Companies have been offering the design and corporate community highly versatile lines of furniture since 1962.

Numerous shapes, styles, configurations and sizes can be specified to fit virtually any application, from high traffic reception areas to prestigious executive offices.

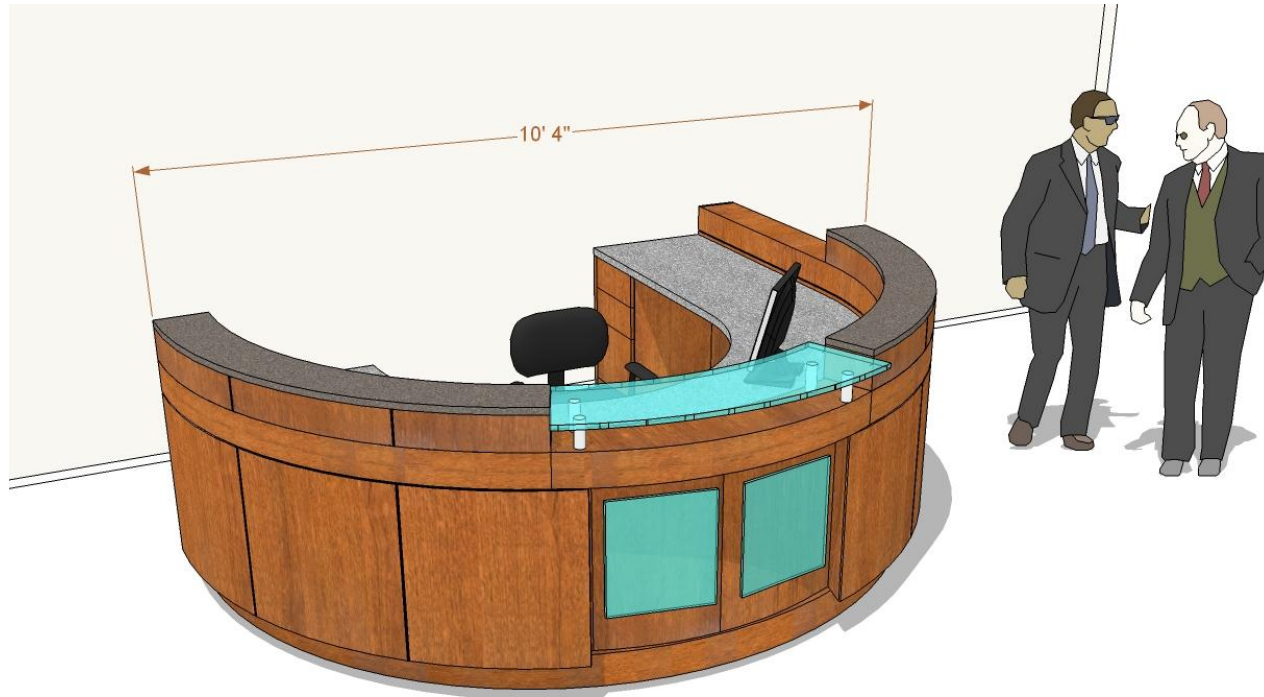

ARD reception Desks can be specified in wood, laminate, or both, with stone inlay and overlay options for the transaction counters. Metal, Corian, Quartz, and Acrylics can also be incorporated.

Shapes and sizes can be readily modified for special needs.

ARD uses Sketchup Pro for its renderings. This program permits the rapid creation of true 3-D images. Sketchup drawings allow the enduser to envision with some degree of certitude the eventual look of their reception desk.

Sketchup can import from and export to AutoCad

As with all Arnold products, specifiers can mix and match materials, colors, and veneer patterns to place their own signature on the finished product.

Painted lacquer finish with stone 'waterfall' transaction counter

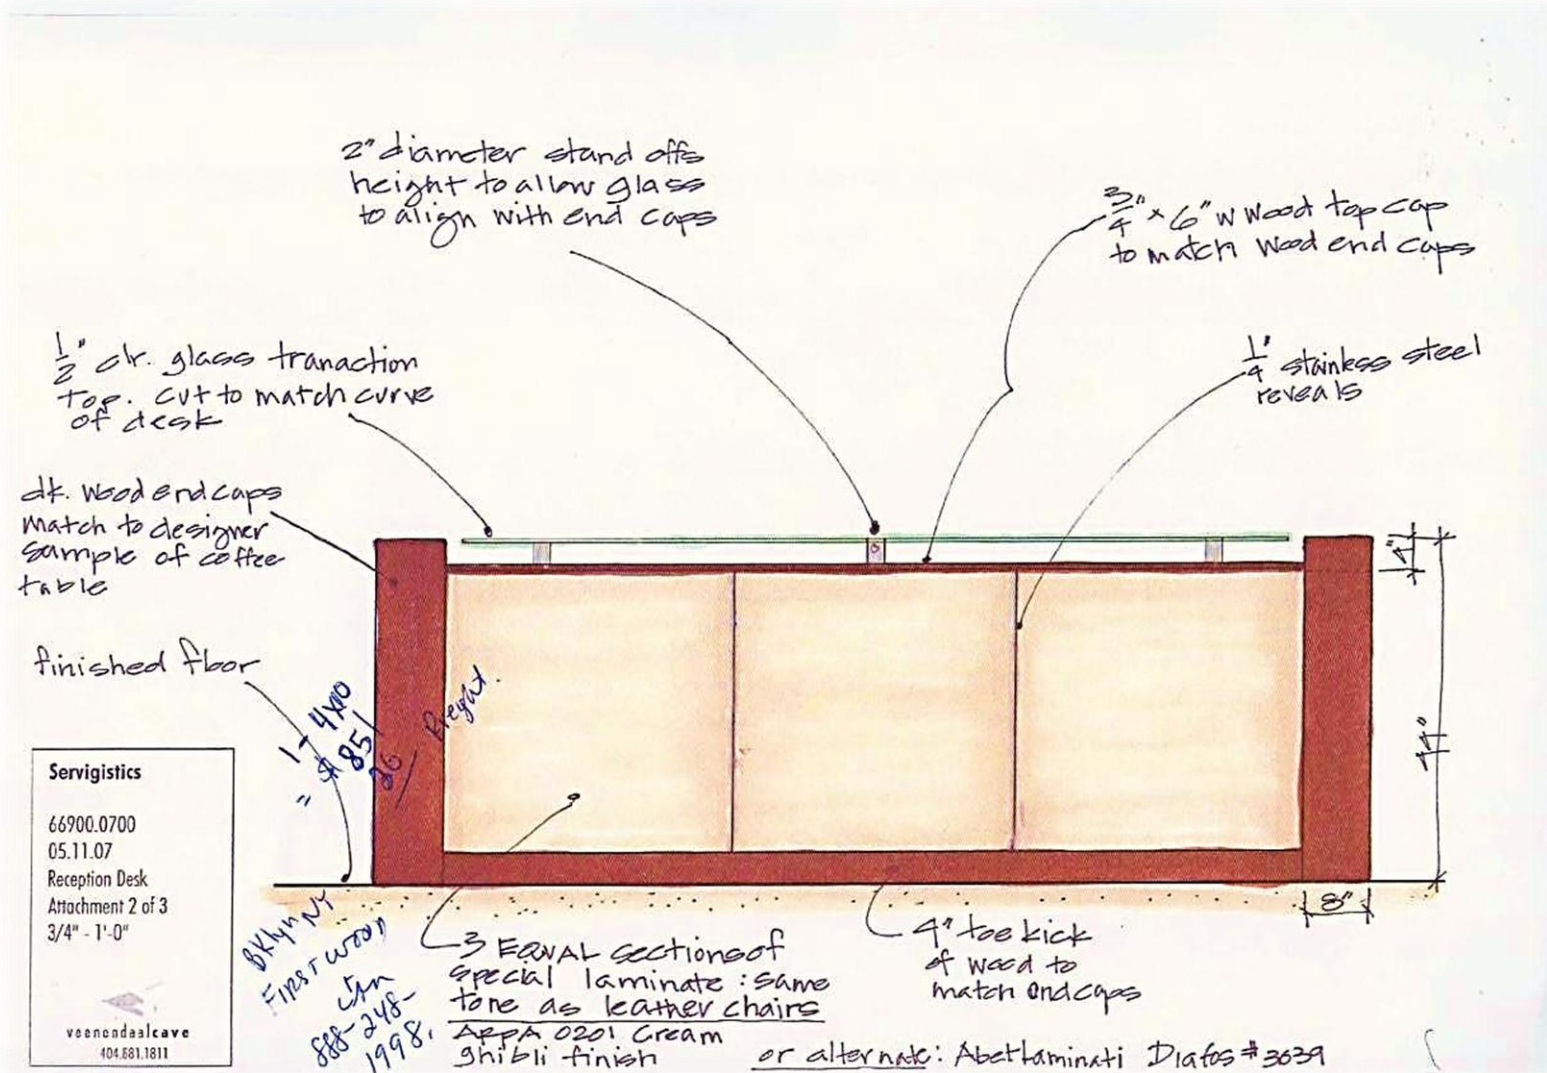

Quartered walnut, Travertine saddle counter with white painted glass accents.

Quote Process

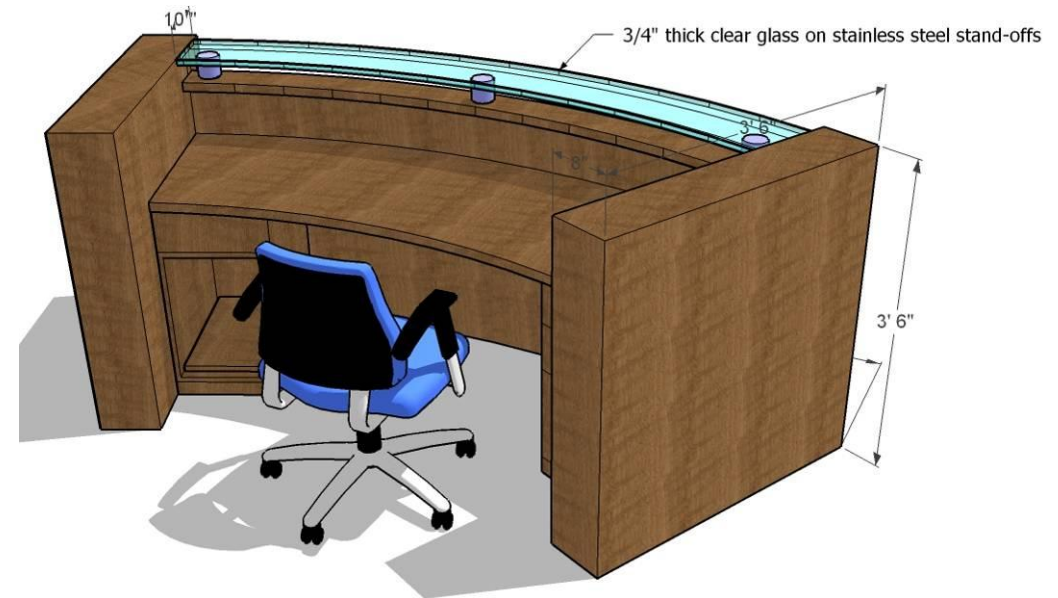

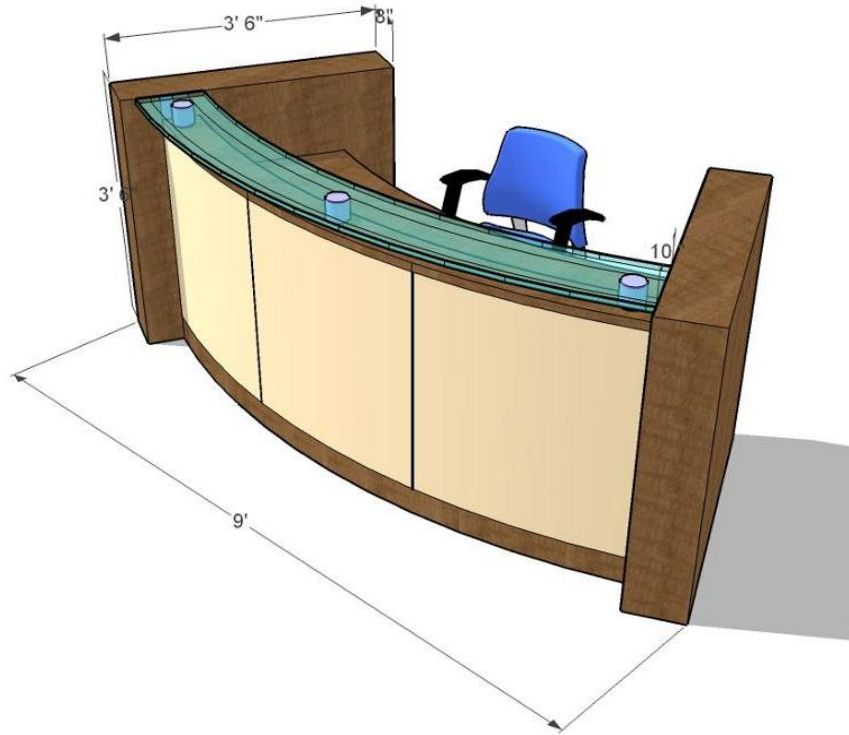

ARD receives many quote requests where the enduser has a specific, non standard footprint, and has identified an ARD style that he or she likes. The following shows the process that we follow to integrate these two constraints. In 2006, ARD introduced the Arcus Series reception desk at the NeoCon East trade show in Baltimore.

A design firm in Atlanta was intrigued by the Arcus and sent us the plan view and front elevation of a modified design, showing how the unit would fit into their circular space.

With the drawings from VenedaalCave as the starting point, our design department worked up a set of renderings for review by the designer and end user.

Once the concept drawings received the approval of the end user, we send a quote that contains all the relevant information.

Workstations

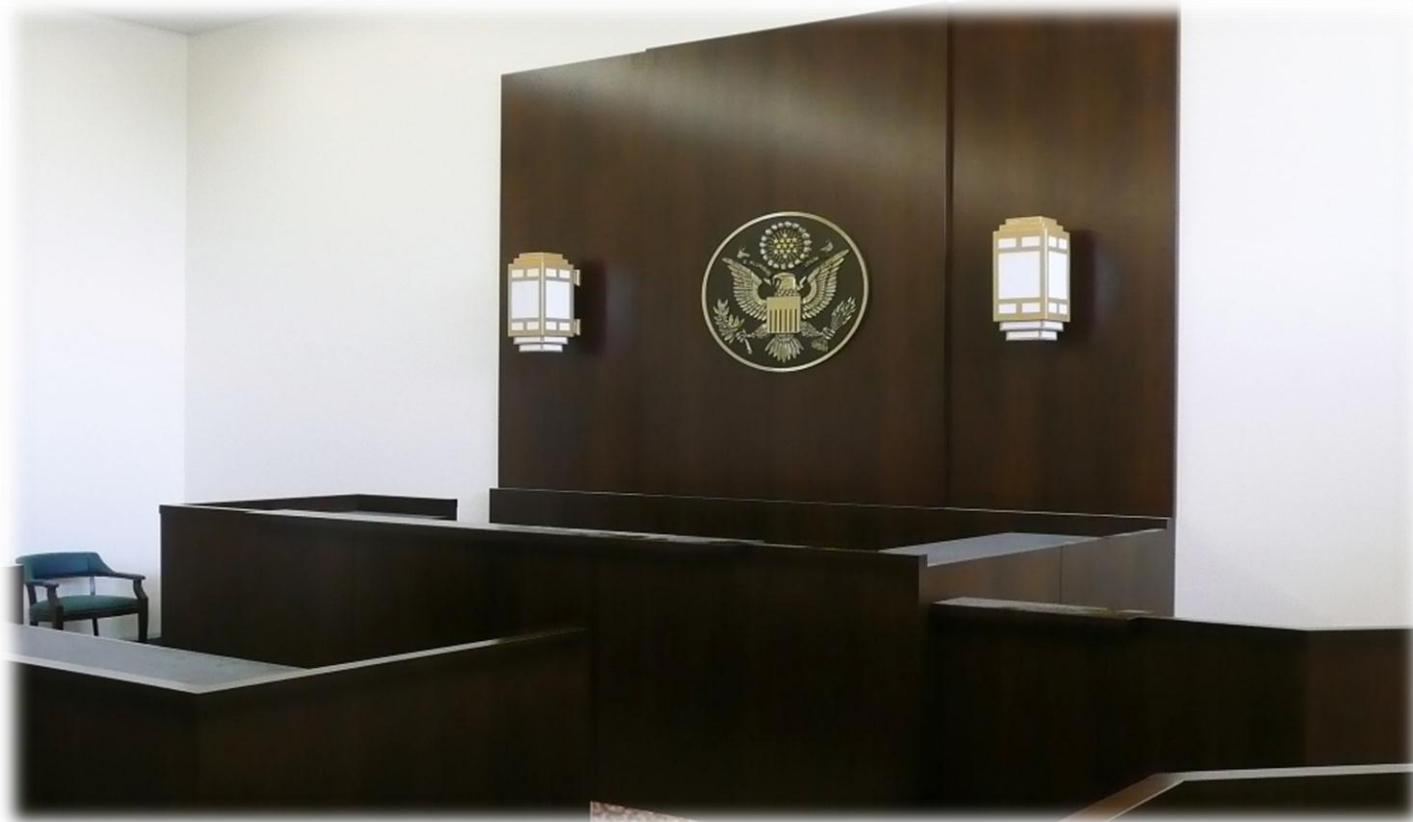

ARD also offers a line of wood workstations that can be customized to fit the needs of the space.

Workstations

Modular Courtroom Furniture

ARD offers a wide range of furniture for courtrooms and council chambers, including a complete line of standard casegoods.

Standard Courtroom Furniture

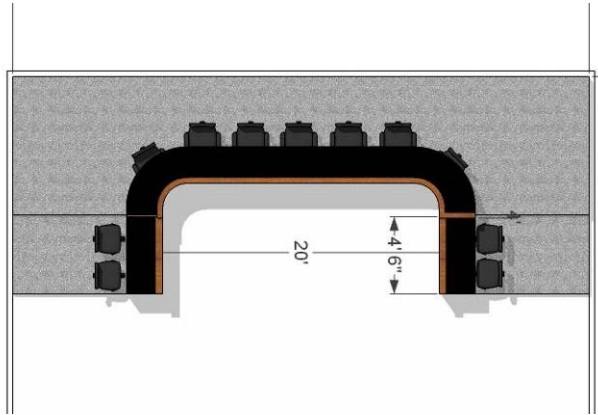

Standard units include judge's benches, witness stands, attorney tables, legal podiums, jury boxes, and courtroom dividers. ARD courtroom components can be easily KD'd and relocated. They are perfectly suited to school courtrooms, hearing rooms, and mock courtrooms.

Council Chamber Furniture

ARD provides council chamber furniture for multi-functional rooms that can server as courtrooms and commission rooms.

Council Chamber Furniture

Plan View

Front Elevation

Sketchup rendering

ARD can help in the design process, given the size of the room, general style of furniture, number of commissioners or judges, height and size of platforms, etc.
