AN INTRODUCTION TO

Arcus

Arcus Series

Modern Sophistication

The Arcus series displays Arnold Reception Desks' blending of traditional materials with unique modern details.

Arcus features a soft curve which allows the visitor to interact comfortably with the receptionist.

Smooth stainless steel stand-offs and a clear glass raised countertop complete the modern design.

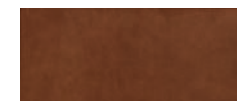

Small inset lights add a shimmer of light along the bottom kickplate and glow atop the glass counter area.

The beauty of the wood's surface is seen within the interior workspace where the true function behind the design is revealed.

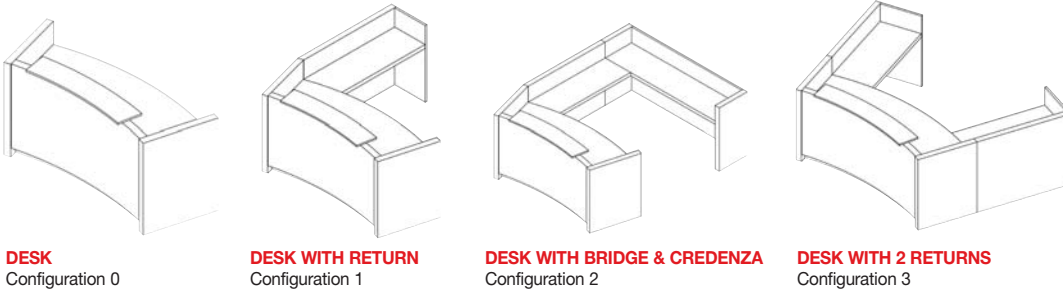

Handmade leather tiles with magnetic backings permit one to smartly change the front look for future restyling.

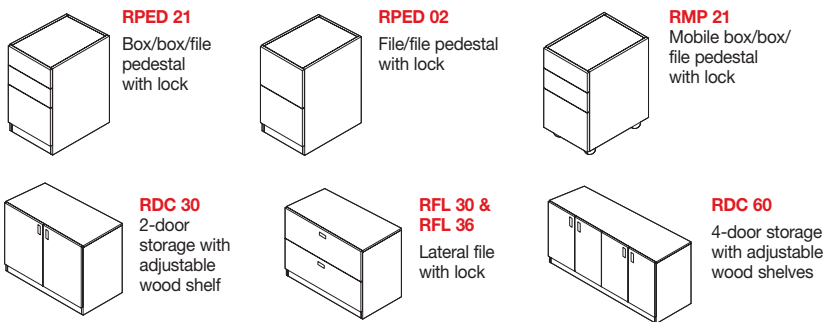

Arcus Series

Arcus features a unique concave design on the front, framed by flaring 3" thick end panels. It comes standard with a clear glass counter on metal stand-offs. Leather tiles for the front panel and LED lights under the counter are optional.
